

How Would You Like Me To Personally Walk You Through the Exact Steps My Clients Are Successfully and permanently LOSING WEIGHT In Spite of PCOS ...?

From the Desk of: Jimi Sayo

London, United Kingdom

Dear Friend,

Let's talk about RESULTS and TRANSFORMATION for a second:

There is more to weight loss than just losing inches.

Everyday my clients celebrate the following results:

Victory over emotional eating and an end to sweet cravings.

An end to binge eating

No more body shaming

Clothes that fit

Increased self esteem

Radiant skin that doesn't need to be smothered in make-up, after years of cruel taunts about bad skin.

An excellent night's sleep.

Many women with PCOS give up on ever being able to lose weight. Or they go about it in the wrong way. Because there is a wrong way to lose weight. This has surprised many of my clients once they find out how effortless it can be.

If 2019 is the year that you're determined not to play games with your health, then get on a call with me and let's map your path to success.

The only question you need to ask yourself is, "**Do I want to overcome PCOS in 2018?**"

If the answer is YES, then I'd love to share with you how women like you are getting these kinds of results, and I'd like to share it with you for FREE. And my strategy doesn't stop with weight loss. We'll work on cravings, binge eating, sugar addiction, hormone control, stress management, carbohydrate control, to name a few of the demons of PCOS

Here's how it works...

Right Now, You're Probably Stuck on One of These 3 Things...

You've had a life-time of yoyo dieting.

OR...

You have never been slim or a normal body weight no matter how hard you tried.

You've been trying to lose weight to no avail so you can get pregnant

You would like to be able to look good in a bikini when you go to the beach

Which of these can you relate to? There are too many scenarios when it comes to weight loss so I can't list them all here. But you know the ones you would have included.

The good news is that whichever it is, I can show help you lose weight, control binges and overcome your sweet tooth addiction. All without starving yourself or going on a strict eating plan. You can be forgiven for thinking it's like magic.

Here's How to Get My Help for FREE...

I've set aside some time to speak to you over the next few days.

We'll get on the phone, or Skype, for about 45 minutes. On that call, we'll lay out a schedule to EMPOWER you to achieve ALL of the 3 things we mentioned above.

This plan is going to enable you to **reach your health goals this year...and exceed them in a domino effect ...**

... in a way that feels **effortless and natural.**

I appreciate that this is a bold promise...

But after witnessing the health transformation of my clients using my system, it is a promise I feel very comfortable making.

The game-plan we craft together will be SIMPLE, CLEAR, and light years ahead of anything you've heard from anyone else.

This stuff works. And I know that if we work together, and you stay coachable, decisive, and resourceful, there is NO limit to what you can achieve with your health.

This invitation is going out to over 3,000 people right now. I anticipate a HUGE response, as you can imagine.

That's why I need you to read this next part carefully:

This is NOT for Everybody.

Here's Whom I Can Help:

I'm VERY picky about whom I'll speak with, and I have a strict (but reasonable) set of criteria that needs to be met in order for us to proceed:

- 1. You've actually been diagnosed with Polycystic Ovary Syndrome.**

A diagnosis often marks the beginning of a lifetime of dashed dreams. This offer is for those that feel they've been let down by conventional medical options for treating PCOS symptoms. From being told you need

to lose weight, as if you haven't spent most of your life trying already, to being put on birth control pills when you want to get pregnant. Nothing, not even the advice given seems to make sense.

If this sounds like you, and you want to be able to deal with the core issues behind PCOS, then you meet this criteria. Let's make sense of it all.

2. You MUST be an action taker who follows directions. That means you're coachable, decisive, and resourceful. (Not that I'm going to ask you to do anything weird!).

If you're a tyre kicker, or the type that signs up for lots of online courses without following them through, this is, this is NOT for you. Maintaining a 100% client success rate is VERY important to me. Please be someone who is serious about achieving lasting results by putting in the work and learning with enthusiasm.

That's it - if you meet BOTH of those requirements, we're good to go!

3, You really are the kind that thinks outside the box.

So, Here's What I Want You to Do Next:

If you meet the criteria above, and you'd like to talk about how we can work together to achieve an incredible turn-around with your hormones and reversing PCOS, then I'll happily set aside some time for you.

Here's what to do next:

Head over to <https://meetme.so/JimiSayo> and you'll see my calendar. Grab a date and time that works for you.

Then you'll be taken to a quick application form. It's very fast and unobtrusive. I just need to know how PCOS has affected you (you know it affects everyone uniquely) and what you need to accomplish.

That's it!

The initial call will go 45-60 minutes, and it'll be the BEST time you've ever spent talking with someone that understands your journey.

I know that your time is precious and there are many dreams you would like to fulfil if you didn't have to contend with PCOS.
